TITLE Information Digest 1987-1988. University System of Georgia.
INSTITUTION University System of Georgia, Atlanta.
PUB DATE Jun 88
NOTE 91p.
AVAILABLE FROM Board of Regents of The University System of Georgia, 244 Washington Street, S.W., Atlanta, GA 30334.
PUB TYPE Statistical Data (110) -- Reports - Research/Technical (143)

EDRS PRICE MF01/PC04 Plus Postage.
DESCRIPTORS Academic Achievement; Academic Rank (Professional); *Academic Standards; Access to Education; Admission Criteria; Budgets; Classrooms; *College Faculty; College Students; Degrees (Academic); *Educational Facilities; *Educational Finance; Educational Research; Enrollment; Higher Education; Publications; School Buildings; State Surveys; *State Universities; Student Costs; Tenured Faculty
IDENTIFIERS *Georgia University System

ABSTRACT

A collections of facts and statistical data to enhance understanding of the University System of Georgia is presented, updating information from earlier editions. Information was selected on the basis of the most frequently asked questions about the system and its 34 institutions. Eight sections focus on: general information (University System of Georgia, membership board of regents, regents central office, advisory council, computer network, major computing systems); students (enrollment information, selected demographic characteristics, admission standards, transfers, student financial aid, Scholastic Aptitude Test); academic information (quarter credit hours, degrees and certificates conferred, number of library additions and holdings, policies and programs, regents testing program, developmental studies program, college preparatory curriculum, uniform calendar); faculty and staff (faculty by rank, faculty highest degree, faculty tenure status, demographic characteristics, total full-time employees); financial data (budget, quality improvement funds, operations and capital outlay, educational and general, funding formula, budget cycle, student fees, other fees, attendance cost); facilities (appropriations, projects completed, buildings and land, inventory of area, age of buildings, repair fund, classrooms and labs, classroom usage, student housing capacity); research and service activities (public service, continuing education, institutes and centers, contracts and grants); and publications. BOARD OF REGENTS
OF THE
UNIVERSITY SYSTEM OF GEORGIA

OFFICE OF THE CHANCELLOR
244 WASHINGTON STREET, S.W.
ATLANTA, GEORGIA 30334

June 1988

Dear Colleague:

The University System of Georgia is a large, comprehensive system of public higher education charged with providing instruction, conducting research, and performing service for the people of Georgia. In addition, it has an outreach program which extends to every state in the nation and to many countries of the world. It is one of Georgia's precious resources and a source of pride to its citizens.

This *Information Digest* brings together between the covers of a slender volume a collection of facts and statistical data designed to increase your knowledge and enhance your understanding of the University System. The choice of material has been dictated in large part by the questions which are most frequently asked of us in the Central Office of the Board of Regents. I hope you will find the *Information Digest* to be both interesting and valuable.

Sincerely,

H. Dean Propst

H. Dean Propst
Chancellor

PREFACE AND ACKNOWLEDGMENTS

This is the fourth edition of the University System of Georgia *Information Digest*. For the most part this edition provides updated information presented in the earlier editions. However, users should consult those editions for some items that were intended for one time publication only and, thus, are not included in this year's document.

The purpose of the Digest is to provide reliable statistical data and summary information concerning the various activities of the University System. The information included herein was selected on the basis of the most frequently asked questions about the System and its 34 institutions. Users needing more specific information are directed to the original data sources cited on each page. In most cases the data and information were summarized from existing publications. The contents and accuracy of translation from the original documents are the sole responsibility of the co-editors.

Appreciation is expressed to persons on the Central Office staff who assisted in their respective areas; Bob Anderson who especially provided a very thorough review and constructive comments; and Teresa Stamps of West Georgia College who provided assistance with graphs. We are especially appreciative of the contribution of Susan Whitman who persevered and is primarily responsible for the labors of conversion to computer based technology.

Your enthusiastic reactions to past editions of the *Information Digest* are sincerely appreciated, and you are encouraged to offer suggestions for future editions. Many of the changes in this edition are the result of reader comments and suggestions.

GENERAL INFORMATION

- The University System of Georgia was created in 1931.
- The System is composed of 4 Universities, 15 Senior Colleges, and 15 Two-year Colleges.
- The University System is governed, controlled and managed by a Board of Regents appointed by the Governor.
- The Board of Regents is composed of 15 members: five from the state-at-large and one from each of the ten congressional districts.
- The Chancellor is elected by the Board as its chief executive officer and the chief administrative officer of the University System.

UNIVERSITY SYSTEM OF GEORGIA

Brief History

The beginnings of public higher education in the State can be traced to 1784 when the General Assembly set aside 40,000 acres of land for the endowment of "a college or seminary of learning." During the following year, a charter was granted for the establishment of the University of Georgia. The state later provided appropriations for establishing the following branches: School of Technology in Atlanta, 1885 (now Georgia Tech); Georgia Normal and Industrial College for Girls, Milledgeville, 1889 (now Georgia College); Georgia State Industrial College for Colored Youths, Savannah, 1890 (now Savannah State College); and the South Georgia Normal School, Valdosta, 1906 (now Valdosta State College). Later, the legislature established an agricultural and mechanical arts (A&M) school in each congressional district.

In 1929, Governor L. G. Hardman established a committee charged with recommending reorganization of higher education. The most significant idea was the creation of a central governing board. On August 28, 1931, the Reorganization Act was signed which created the Board of Regents of the University System of Georgia. The Act called for the governor to appoint eleven members, one from each congressional district, and one at large.

In its January 1932 meeting, the Board adopted the following Statement of Plan:

> It is the conviction of the Board of Regents that the people of Georgia intended to ordain by the Act creating the Board that the twenty-six institutions comprising the University System should no longer function as separate, independent, and unrelated entities competing with each other for patronage and financial support.
>
> The manifest purpose of the Act creating the Board of Regents is to unify and coordinate the work of these institutions so that the educational program of each shall be integrated with that of every other institution and with the system as a whole. The result aimed at is a correlated, harmonious, and symmetrical structure free from wasteful duplications, but providing the maximum of educational opportunity to the students of the State. In short, the emphasis has been shifted from the interests of particular institutions to the interests of the State.
>
> While the traditions, the welfare and the prestige of the several branches of the system will be an object of care on the part of the Board, all of their problems are to be finally resolved by the answer to the question: What will best serve the educational interests of the State as a whole?
>
> With this as the paramount consideration, the constant aim of this body will be to establish and maintain a system of higher education that will command the sympathy and support of our educational leaders, and at the same time successfully meet our needs by offering the young men and women of Georgia the maximum of education.
>
> To accomplish this result, the Regents will, after careful study, take such steps that to them seem best to coordinate and unify these institutions so that they will be related in purpose and regulated in scope. The only competition in which these schools will hereafter engage will be for preeminence in service and scholarship.

The Reorganization Act of 1931 transferred to the new Board the responsibility for 26 institutions. The Board began immediate reorganization by abolishing the A&M schools and two additional schools and creating two other institutions. The net result was that the System was reduced to 18 institutions. The earliest recorded enrollment was 8,035 in Fall 1933. The System was appropriated $1,900,500 by the State for 1932-33 but received only $1,624,928. In 1941, the Southern Association of Colleges and Schools withdrew the accreditation of 10 University System institutions because of irregularities and incidences of outside interference into academic activities at the institutions. In 1943, newly-elected Governor Ellis Arnall sponsored a Constitutional amendment to remove such interference by making the Board a Constitutional body. The amendment was overwhelmingly approved by the voters.

The principles enumerated in the 1932 policy statement have guided the development of a unified system. Today the Board continues to have Constitutional authority to govern, control, and manage the University System, as reaffirmed in the approval of the new State Constitution in 1982. These powers include the authority for program approval or discontinuance, internal reallocation of the budget, facilities construction, and decisions concerning adding new institutions, upgrading or downgrading the level of an institution, or closure or merger of institutions.

The University System is currently composed of 34 institutions (4 universities, 15 senior colleges, 15 two-year colleges). In addition, three of the two-year colleges and one senior college maintain a postsecondary vocational-technical unit in cooperation with the State Board of Postsecondary Vocational Education.

UNIVERSITY SYSTEM OF GEORGIA

Board of Regents

The Board of Regents is composed of 15 members: five from the state-at-large and one from each of the ten congressional districts. Members are appointed by the Governor and confirmed by the Senate. They serve seven year terms of office. The Board meets monthly at the Regents office in Atlanta but occasionally at System institutions and special retreats.

MEMBERSHIP OF THE BOARD

REGENT	RESIDENCE	DISTRICT	TERM
John Henry Anderson, Jr.	Hawkinsville	State-at-large	1983-1990
Deen Day Smith	Atlanta	State-at-large	1988-1995
Carolyn D. Yancey	Atlanta	State-at-large	1985-1992
Joseph D. Greene	Thomson	State-at-large	1984-1991
Barry Phillips	Atlanta	State-at-large	1988-1995
Arthur M. Gignilliat, Jr.	Savannah	First	1983-1990
William T. Divine, Jr.	Albany	Second	1982-1989
William B. Turner	Columbus	Third	1986-1993
Jackie M. Ward	Atlanta	Fourth	1984-1991
Elridge W. McMillan	Atlanta	Fifth	1982-1989
Edgar L. Rhodes	Bremen	Sixth	1985-1992
W. Lamar Cousins	Marietta	Seventh	1987-1994
Thomas H. Frier, Sr.	Douglas	Eighth	1985-1992
James E. Brown	Dalton	Ninth	1987-1994
John W. Robinson, Jr.	Winder	Tenth	1986-1993

OFFICERS OF THE BOARD, 1987-88

Jackie M. Ward	Chair
Joseph D. Greene	Vice Chairman
H. Dean Propst	Chancellor
David S. Spence	Executive Vice Chancellor
Henry G. Neal	Executive Secretary
Jacob H. Wamsley	Treasurer

All officers are elected for one-year terms beginning on July 1, except for the Chancellor who serves at the pleasure of the Board.

STANDING AND SPECIAL COMMITTEES OF THE BOARD OF REGENTS

Executive Committee	Organization and Law
Buildings and Grounds	Private College Liaison
Desegregation	Research and Extension
Education	Student Affairs
Finance and Business Operations	Visitation
Health Professions	Liaison to the State Board of Education

Liaison to the State Board of Postsecondary Vocational Education

The Chairman has the authority to appoint committee chairmen and members. Each committee is charged with studying the problems in the field assigned to it and making recommendations to the Board concerning policies and activities. Special committees may also be authorized by the Board as needed.

Assistant Vice Chancellor - Academic Affairs	David M. Morgan
Assistant Vice Chancellor - Affirmative Action	Mary Ann Hickman
Assistant Vice Chancellor - Facilities	H. Guy Jenkins, Jr.
Assistant Vice Chancellor - Facilities	Thomas E. Mann
Assistant Vice Chancellor - Fiscal Affairs/Personnel	T. Don Davis
Assistant Vice Chancellor - Fiscal Affairs/Accounting Systems and Procedures	Gordon M. Funk
Assistant Vice Chancellor - Fiscal Affairs/Budgets	C. Roger Mosshart
Assistant Vice Chancellor - Planning	Michael Moore (Interim)
Assistant Vice Chancellor - Research	Joseph J. Szutz
Executive Assistant to Chancellor	Thomas E. Daniel
Assistant to Chancellor - Public Relations and Information Services	Kay Miller

CHANCELLORS, 1932 - PRESENT

Charles M. Snelling	January 1, 1932 - May 12-13, 1933
Philip Weltner	May 12-13, 1933 - June 30, 1935
S. V. Sanford	July 1, 1935 - September 12, 1945
Raymond R. Paty	October 9, 1946 - December 31, 1948
Harmon W. Caldwell	January 1, 1949 - June 30, 1964
George L. Simpson, Jr.	July 15, 1965 - June 4, 1979
Vernon Crawford	May 20, 1980 - June 30, 1985
H. Dean Propst	July 1, 1985 - Present

Acting Chancellors:

Marion Smith	September 12, 1945 - October 8, 1946
S. Walter Martin	July 1, 1964 - July 14, 1965
Vernon Crawford	June 15, 1979 - May 20, 1980

ADVISORY COUNCIL

UNIVERSITY SYSTEM ADVISORY COUNCIL

The University System Advisory Council has the power to make recommendations to the Chancellor and through him to the Board of Regents regarding educational and administrative matters of concern to the University System. Membership is composed of the Chancellor, the Executive Vice Chancellor, and the presidents of the 34 institutions. The Council holds at least one regular meeting each quarter with special meetings held upon the call of the Chancellor. The Advisory Council has both academic and administrative committees which formulate recommendations to be presented to the Advisory Council for consideration. Those matters originating with academic committees are first considered by the Administrative Committee on Academic Affairs prior to consideration by the Advisory Council.

Membership on academic committees is limited to one representative per institution offering work in the field with which the committee is concerned. Administrative committees are of two types: those in which representation consists of one representative from each institution and those with selective representation which are appointed by the Chancellor for the study of a restricted area of concern.

Academic Committees:

Biological Sciences
Business Administration, Management, and Economics
Chemistry
Computer Science and Systems Analysis
Criminal Justice
Developmental Studies
English
Fine and Applied Arts
Foreign Languages
Geological Sciences and Geography
Health Professions
History
Home Economics
Libraries
Mathematical Subjects
Philosophy
Physical Education, Health Education, and Recreation
Physics
Political Science
Psychology
Sociology, Anthropology, and Social Work
Teacher Education

Administrative Committees:

Academic Affairs
Fiscal Affairs
Graduate Work
Institutional Research and Planning
Public Information
Public Service/ Continuing Education
Records and Admissions
Research
Student Affairs
Testing
Transfer of Credit

UNIVERSITY SYSTEM STUDENT ADVISORY COUNCIL

The purpose of the Student Advisory Council (S.A.C.) is to provide a forum for communication and recommendation between students enrolled in University System institutions and the Chancellor, the Board of Regents, state government, and the public, concerning problems and issues in student-related areas. Membership is composed of one elected officer from each of the institutions. The S.A.C. meets at least once annually and works closely with an advisor from the Chancellor's staff as well as the Chancellor. The Council also meets annually with the Board to present a report of its activities and recommendations.

UNIVERSITY SYSTEM COMPUTER NETWORK

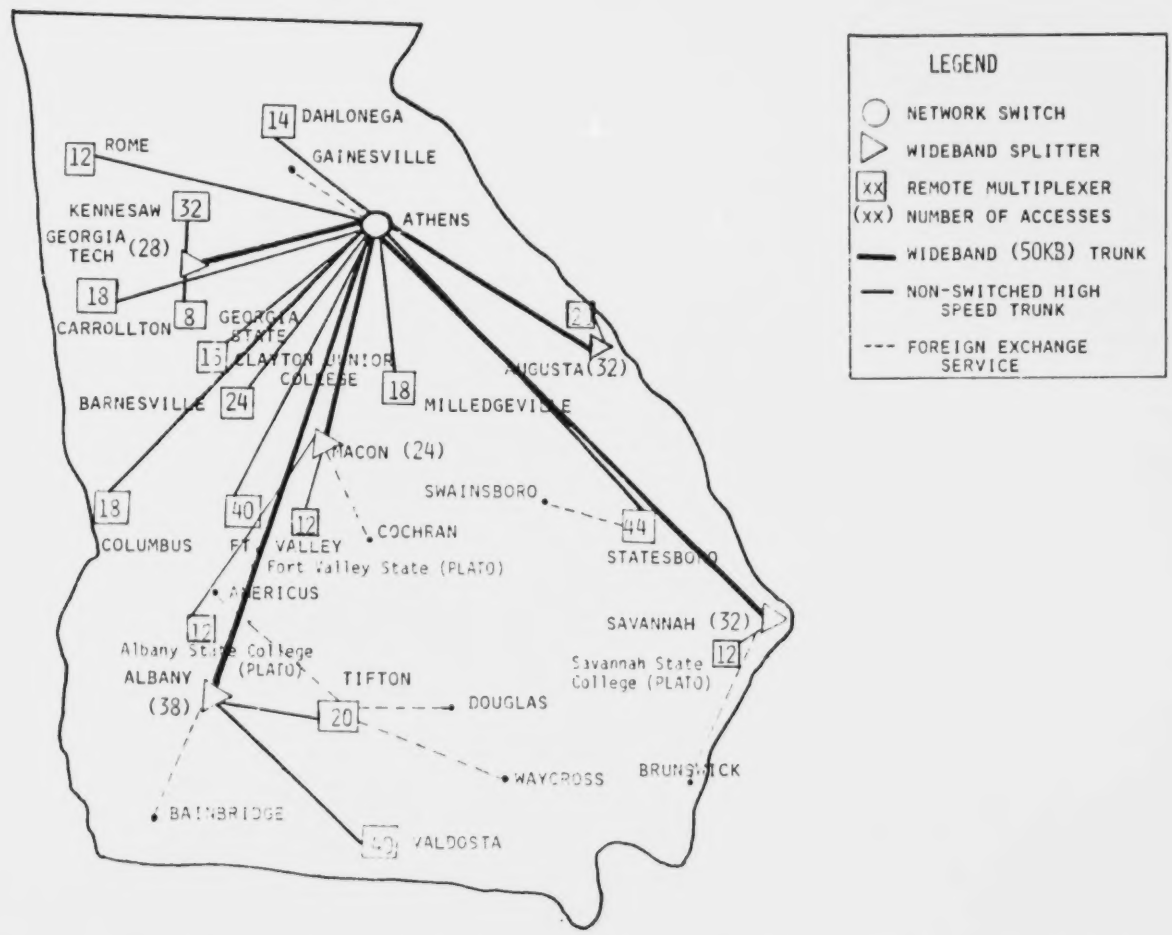
Founded: 1970

Purpose: To promote and encourage the sharing of computing facilities, resources, expertise, and services throughout the State of Georgia.

Membership: All 34 institutions of the University System of Georgia; participating members also include certain cooperative extension offices, small business development centers, and other public service units.

Governance: Each participating institution has at least one Campus Coordinator to provide local USCN support; an eight-member, policy-forming Executive Committee is drawn from these Campus Coordinators (two two year college representatives, two senior college representatives, two members-at-large, one university level representative, and the past chairperson); administrative responsibility for the USCN resides in the Office of Vice Chancellor for Information Technology.

Statewide Telecommunications Network: The State of Georgia map below shows the star configuration of the data communications network for the USCN. Originating from the University of Georgia, this network consists of wideband (50,000 data bits per second) dedicated telephone trunk lines connected to programmable data switches at the University of Georgia and a number of remotely located multiplexers. Users at any participating site access, via this network, services and resources not readily available locally. The facilities providing these services are located primarily at the University of Georgia, Georgia State University, and Georgia Institute of Technology.



Service Available: Computing resources are shared throughout the State to support all areas appropriate for computing needs including instructional, administrative, research, and electronic communications support.

Network Services: Consulting and user support services are provided by the Network Services staff. Staff members are located at the University of Georgia, Georgia Southwestern College, and Georgia Southern College.

STUDENTS

- The System enrolled 153,652 students.
- Minorities are 18.7% of the enrollment.
- Blacks are 14.9% of the enrollment.
- Business is the preferred major of students.
- Thirteen thousand students transfer each year.
- Students come from all Georgia counties, all 50 states, and 145 foreign countries.
- 87.7% of the enrollment is from Georgia.
- 155 million dollars in financial aid was awarded.
- The average total SAT score is 873.

HEADCOUNT ENROLLMENT

Fall 1978 - Fall 1987

HEADCOUNT enrollment represents an unduplicated count of all students who are enrolled in credit courses at a University System institution, regardless of course load. Therefore, it includes both full-time and part-time students.

Institution	1978	1979	1980	1981	1982	1983	1984	1985	1986	1987

EQUIVALENT FULL-TIME (EFT) ENROLLMENT

Fall 1978 - Fall 1987

EFT enrollment is the conversion of the number of all students enrolled full-time and part-time into an equivalent number of full-time students. It is calculated by dividing the total credit hours taken by all students during the quarter by 15, the load for a full-time student for a quarter.

FIRST-TIME ENTERING FRESHMEN

Fall 1978- Fall 1987

The System's current enrollment as well as future enrollment is affected by the size of the entering freshman class. The following data represent all students who entered college for the first time in the specified Fall quarter as one of the following classifications: joint enrollment, regularly admitted freshmen, and freshmen required to enroll in one or more developmental studies courses. The data do not include transfer freshmen.

Definitions:

1) Developmental Studies includes only those students who are required to take one or more developmental studies (remedial) courses; these students may also be enrolled in degree credit courses in areas where remediation is not required.

2) Freshman includes students who have earned 0-44 college credit hours; includes joint enrollment (students who have met specified admission standards to be enrolled simultaneously in high school and college), regularly admitted freshmen.

3) Sophomore includes students who have earned 45-89 college credit hours.

4) Junior includes students who have earned 90-134 college credit hours.

5) Senior includes students who have earned 135 or more college credit hours.

6) Graduate includes post baccalaureate and fully admitted students in master's, education specialist, and doctoral programs.

7) Professional includes medicine, dental medicine, veterinary medicine, law, pharmacy, and Board designated programs in forestry, social work, and journalism at the University of Georgia; also includes medical residents and interns.

8) All Other includes non-degree seeking students, transients, and auditors.

ADMISSION STANDARDS AND PROGRAMS

MINIMUM ADMISSIONS REQUIREMENTS

The following minimum freshman admissions requirements have been approved by the Board of Regents for use in the Summer Quarter, 1988:

Regular admission to programs leading to the baccalaureate degree

a. Graduation from an accredited secondary school or a GED certificate which satisfies the minimum score requirements of the State of Georgia
b. Completion of the Scholastic Aptitude Test (SAT) the American College Testing (ACT) Assessment Program
c. Completion of college preparatory curriculum (for students graduating from high school Spring, 1988, or later)

Students must have a minimum of a 1.80 high school grade point average (on a 4.0 scale and on "academic work" only) or a 250 verbal SAT score, or a 280 mathematics SAT score (or comparable ACT scores). Students scoring below 350 on the verbal SAT or below 350 on the mathematics SAT must be tested for entry into appropriate developmental studies courses (see Developmental Studies section elsewhere in this document).

Students who have not attended school within the previous five years may take the University System of Georgia Collegiate Placement Examination instead of the SAT or ACT.

Admission to career degree programs

a. Graduation from an accredited secondary school or a GED certificate which satisfies the minimum score requirements of the State of Georgia
b. Completion of the University System of Georgia Collegiate Placement Examination

Satisfaction of these minimums does not guarantee admission to any University System institution since institutions may establish both higher and additional admissions requirements.

Source: Policy Manual

JOINT ENROLLMENT AND EARLY ADMISSION PROGRAMS

The purpose of both programs is to provide academically talented high school students with opportunities for acceleration of their formal academic programs. A joint enrollment student is one who is enrolled in courses for college credit while continuing in high school. An early admissions student is one who enrolls as a full-time college student following completion of the junior year in high school. Minimum admissions requirements are 1) a minimum combined Scholastic Aptitude Test score of 850, 2) a minimum cumulative high school grade point average of 3.0 in academic subjects, 3) written approval (joint enrollment) or written recommendation (early admission) of the high school principal, and 4) written consent of parent or guardian (if student is a minor). Institutions may establish higher admissions standards or additional admissions requirements for either or both programs. In Fall 1987, 610 students were enrolled through the joint enrollment program.

Source: Academic Affairs Handbook

SENIOR CITIZEN ADMISSIONS

Pursuant to a Georgia constitutional amendment passed in 1976, Georgia residents, 62 years of age or older, may enroll as a regular or auditing student in degree credit work on a "space available" basis without payment of fees, except for supplies and laboratory or shop fees. Students must meet all System and institution undergraduate or graduate school admission requirements and follow the same program as other degree-seeking students. The program does not apply to Dental, Medical, Veterinary, or Law Schools. In Fall 1987, 254 persons were enrolled through the program.

TRANSFERRED TO ANOTHER SYSTEM INSTITUTION

HOW TO READ THE TABLE: 1) Locate the column of the Sending Institution at the top of the page and the row of the Receiving Institution on the left side of the page. For example, GIT (Georgia Tech) received 14 transfer students from KEN (Kennesaw College) and KEN received 18 transfer students from GIT. 2) To determine how many students transferred from a System institution to another System institution, read the bottom line. For example, 253 students transferred from Georgia Tech to another System institution. Data are not available on numbers who transferred to a non-System Georgia institution or an out-of-state institution.

Notes: 1) Composite score is derived by summing the SAT Verbal score (possible range = 200 - 800) and the SAT Math score (possible range = 200 - 800). The possible Composite score range is 400 - 1600.

2) Medical College of Georgia admits only a very limited number of freshmen. Most undergraduates are transfer students.

* Total number of University System freshmen included in the 1987 data analysis to determine the average composite score

** Total number of Georgia high school seniors who took the test in 1987

Source: Normative Data for the 1986-87 Freshman Class

ACADEMIC INFORMATION

- Conferred 14,189 Bachelor Degrees in 1987.
- More Bachelor Degrees conferred in business (31.1%) than any other discipline.
- Awarded 5,272 Masters Degrees.
- More Masters Degrees conferred in education (40.8%) than any other discipline.
- 74% passed the Regents Test.
- A Core Curriculum facilitates transfer within the System.
- All institutions operate on a uniform calendar.
- There are over 10 million bound volumes with a total investment in library collections of $166 million.

Miscellaneous

CORE CURRICULUM

The institutions of the University System share a common general mission in providing a Core Curriculum for all entering freshmen. The purpose is to aid and facilitate the educational progress of students as they pursue baccalaureate degrees within and among the units of the University System. It is designed to constitute the freshman and sophomore years of study and assure the transfer student that Core Curriculum courses successfully completed at one University System institution, or a fractional part thereof, will be accepted at another University System unit and apply toward a baccalaureate degree. The Core also provides for the preservation of the maximum possible amount of institutional autonomy.

The Core Curriculum is composed of ninety quarter credit hours of study divided among four areas of which sixty hours are in general education and thirty in a major area of study.

	Area	Quarter Credit Hours
I.	Humanities	20
II.	Mathematics and Natural Science	20
III.	Social Sciences	20
IV.	Major area of study	30
	Total	90

The result has been that fewer transfer students lose credit, and institutions, particularly two-year colleges, are no longer placed in the difficult position of attempting to provide excessive curricular offerings to satisfy lower division requirements in various baccalaureate degree programs offered at all four-year institutions. Each institution has developed its Core Curriculum within the broad context of the above plan. The list is maintained in the Core Curriculum Handbook and is updated periodically as changes are recommended.

INTERNATIONAL INTERCULTURAL STUDIES PROGRAM (IISP)

The purpose of the program is to recommend to the Chancellor approval of any program with a foreign travel component. Its mission is to internationalize the outlook, curriculum, and campus of the 34 colleges and universities in the System. It does so by providing opportunities for study abroad throughout the academic year (21 programs in 1987), exchange opportunities for both students and faculties, faculty development projects abroad, and development of joint research projects with foreign faculty. Other efforts are focused on assisting institutions with foreign student recruitment, creating area institutes (i.e., Far Eastern Studies, African Studies) and, generally, promoting a more significant understanding of global issues and culture. Up until Fall 1984, this program was called Studies Abroad.

REGENTS TESTING PROGRAM

PURPOSE: The Regents Testing Program (RTP) was instituted in all System institutions to 1) provide System-wide information on the status of student competence in the areas of reading and writing and 2) provide a uniform means of identifying those students who fail to attain the minimum levels of competence in the areas of reading and writing. Passing the test became a requirement for graduation from undergraduate degree programs (associate and baccalaureate) in 1973. In 1987 the RTP policy was changed to exempt students earning career associate degrees.

The test is comprised of two parts, reading and essay, and is administered during a testing period at all System institutions. Each institution is responsible for its own test administration and arranges for supervisors and proctors. A test manual is provided. After the last test administration, all testing materials are returned to the RTP office for scoring.

SCORING: The reading part of the test is a 60-item, multiple choice test based on ten reading passages with five to eight questions about each passage. The questions are designed to assess vocabulary, comprehension, and analysis skills. The answers are machine scored and the raw score is converted to a standard score with a range of 01-99. The minimum passing score for the reading section is 61.

For the essay part, students have one hour in which to choose and write on one of the two topics that are given. The completed essays are then distributed by the RTP office among six centers in the State, where raters from System institutions score them. Essays are identified by social security number only so that raters do not know the identity of the student or the institution. Three independent raters score each essay on a 4-point scale (4-superior performance; 3-high passing performance; 2-low passing performance; 1-substandard or failing performance). The final score is the rating on which at least two of the three raters agree or the middle rating if there is no agreement. An essay is given a failing grade only if at least two of the three raters assign a failing grade.

REMEDIATION: Students who have earned 75 quarter hours of college-level credit and have not passed both parts of the test must take non-degree credit courses in remedial reading and/or writing until they have passed both components of the test. If a student fails only one part of the test, he is required to repeat only that part. There is no limit on the number of times a student may take remediation or retake the test, although some institutions have policies allowing students to retake the test only when quantifiable progress has been made.

(Note: Policy applies to undergraduate students only.)

DEVELOPMENTAL STUDIES PROGRAM

The Board of Regents adopted a System-wide policy providing for a Developmental Studies program beginning in Fall 1974 as a means of bringing the reading, English, and mathematical skills of marginally prepared student up to standard. Students scoring below either 330 SAT-Verbal or 330 SAT-Math or students who do not meet the institution's standards for regular admission are required to take the appropriate part(s) of the Basic Skills Examination, an achievement test developed by the University System, to determine whether they are to be placed in developmental Studies or other credit course work. Students who do not complete the exit requirements for the required Developmental Studies area(s) after four attempts are suspended from the Developmental Studies program and are not eligible for re-entry for one quarter. Students are not allowed more than four quarters in any one area. Students may accumulate up to 30 hours of degree credit while classified as a Developmental Studies student but may not take degree credit courses which require the content or skills of the Developmental Studies course(s) which has not been successfully completed. In both admissions and exit requirements, institutions may develop stricter standards. No degree credit may be earned in Developmental Studies courses, but institutional credit is awarded.

FALL ENROLLMENT

The data provided below from 1978-1986 include all students who were required to take one or more Developmental Studies course(s). Data for 1987 include all students who enrolled in a Developmental Studies course. Many of these students were deficient in one or two of the three areas and thus were also taking degree credit work simultaneously.

CAUTION ABOUT DATA: Because admissions standards and Developmental Studies program exit requirements vary among institutions, extreme care must must be exercised in making comparisons between institutions. For instance, some institutions, particularly those with strong mathematics/science components, may establish higher admissions standards so that large numbers of students are required to enter Developmental Studies Math to strengthen their skills. Other institutions with a mission to educate marginally prepared students operate with lower admissions standards, and these institutions may have a smaller Developmental Studies enrollment. For these reasons, Developmental Studies enrollment is not an accurate indicator of student quality.

COLLEGE PREPARATORY CURRICULUM

FOR REGULAR ADMISSION:

The following courses will be required of students graduating from high school in the spring of 1988 or later who plan to enroll in regular college programs leading to the baccalaureate degree in University System institutions:

COURSE (UNITS)	INSTRUCTIONAL EMPHASIS
English (4)	-- Grammar and usage -- Literature (American, English, and World) -- Advanced composition skills
Science (3)	-- Physical Science -- At least two laboratory courses from Biology, Chemistry, Physics, or related areas of science
Mathematics (3)	-- Two courses in Algebra and one in Geometry
Social Science (3)	-- American History -- World History -- Economics and Government
Foreign Language (2)	-- Two courses in one language emphasizing speaking, listening, reading, and writing

FOR PROVISIONAL ADMISSION:

Institutions may maintain a "provisional admission" category for those entering students graduating from high school in the spring of 1988 through the spring of 1992 who do not meet the "regular admission" standards. These students will be required to complete specified courses upon admission to the institution.

Notes: 1) Institutions may choose not to have a provisional admission category.

2) Institutions may set higher standards than those specified above.

3) The curriculum has been approved by the Board of Regents and endorsed by the State Board of Education.

UNIFORM CALENDAR

QUARTER SYSTEM

All institutions in the System operate on a quarter system with the exception of the Law School at the University of Georgia which was granted permission by the Board to operate on a semester system for accreditation purposes.

LENGTH OF QUARTER

The three regular quarters of the academic year (fall, winter, spring) cannot be less than eleven calendar weeks each, with allowances therein for registration, instruction, examinations, and reporting of grades to the registrars. A quarter normally includes ten full weeks of instruction (a minimum of 47 class days). A minimum of 500 minutes of instruction is required for each quarter credit hour awarded to the student.

The scheduling of summer quarter work may be flexible but with the stipulation that all summer quarter work be equivalent to that done in other quarters, with respect to instructional time.

BEGINNING AND ENDING DATES

The earliest beginning and latest ending dates are approved by the Chancellor and must be followed by all institutions.

	Quarter	Earliest Beginning Date Allowable	Latest Ending Date Allowable	Number of Week Days
FY1987	Summer 1986	June 16, 1986	September 5, 1986	58

FACULTY and STAFF

- The System employs 7,644 faculty.
- 58.6% are tenured.
- 28.8% are female.
- 7.4% are black.
- 64.9% hold doctoral degrees.
- There are a total of 26,665 full-time employees.

FACULTY BY RANK

May 1988

CORPS OF INSTRUCTION

Full-time professors, associate professors, assistant professors, instructors, and lecturers are considered the Corps of Instruction and must be approved by the Board of Regents prior to their initial appointment upon recommendation of the Chancellor and the president of the institution. Promotion to a higher rank must also be approved by the Board upon recommendation of the Chancellor and the president of the institution. The appointment of full-time lecturers is limited to universities and to individuals with exceptional talents.

FACULTY TENURE STATUS

May 1988

Tenure resides at the institutional level. Only assistant professors, associate professors, and professors who are normally employed full-time by an institution are eligible for tenure. Tenure is awarded upon recommendation by the president and approved by the Board of Regents. Tenure may by awarded at the end of a five-year period, and the maximum time that may be served at the rank of assistant professor or above without the award of tenure is seven years. Administrators do not hold tenure in their administrative positions but may be awarded rank and tenure within a department. The Board has also established a non-tenure track policy for persons with faculty rank. There is no limit for years of service in this category, but persons cannot be considered for award of tenure or receive probationary credit toward tenure for years of service in this track.

Note: The "Faculty" total above (n=6,800) does not include administrators who hold Board approved academic rank as does the "Faculty" total in the tables on the previous pages (n=7,644).

DEFINITIONS:

Faculty - persons whose primary assignments are instruction, research, or public service and who hold academic rank; includes department chairpersons if their principal activity is instructional; includes persons on nine-month and twelve-month contracts.

Executive/Administrative/Managerial - persons whose assignments require primary responsibility in management of the institution; includes department chairpersons if their principal activity is administrative.

Professional Non-Faculty - persons with specialized professional training who cannot be classified in any of the other classifications (i.e., librarians, lawyers, physicians).

Secretarial Clerical - persons such as secretaries, bookkeepers, sales clerks, and data entry clerks.

Technical Paraprofessional - persons with technical skills acquired through experience or a technical degree (i.e., computer programmers, draftsmen).

Skilled Crafts - persons with special manual skills (i.e., mechanics, electricians, machinists, carpenters).

Service/Maintenance - persons with limited skills (i.e., food service and cleaning workers, drivers, laborers, and groundskeepers). Number of persons employed in this classification has declined in recent years since a number of institutions are now contracting with an outside agency for these services.

FINANCIAL INFORMATION

- The total budget was $1,396 million in FY1988.
- State appropriations were $772.1 million.
- Student fees account for 25% of the instructional budget.
- The typical cost of attending a System Senior College is estimated at $3,367 per year.

QUALITY IMPROVEMENT FUNDS

This fund is intended to be an additional budget item not included in the above and is designated as one percent of the total budget. Some of the intended uses of the fund are for 1) purchasing state of the art equipment for classrooms and laboratories, 2) strengthening library collections, 3) creating professional development programs, and 4) establishing special faculty chairs.

ALLOCATION OF QUALITY IMPROVEMENT FUNDS

FUNDING FORMULA

The University System operates under a formula funding system developed in 1982 and implemented in the FY1984 budget request. The formula serves as a basis for requesting funding from the Legislature only and is not used to allocate money to the various institutions.

I. INSTRUCTION and RESEARCH

Instruction - the formula for Instruction is based on quarter credit hours generated in three instructional levels (lower, upper, and graduate/professional) and three broad program groups (1-3), plus special program groups for developmental studies (4) and medicine (5).

Group 1 - Law, Letters, Library Science, Psychology, and Social Sciences.
Group 2 - Area Studies, Business, Communications, Education, Home Economics, Mathematics, Public Affairs, and Interdisciplinary Studies.
Group 3 - Agriculture, Architecture, Biological Sciences, Computer Science, Engineering, Fine and Applied Arts, Foreign Languages, Health Professions, Physical Sciences, and Technologies.
Group 4 - Remedial/Developmental Programs.
Group 5 - Medicine, Dentistry, Veterinary Medicine.

Research - funding for research is based on an amount equivalent to graduate instruction.

Community Education - funding based on production of Continuing Education Units

II. PUBLIC SERVICE - a basic amount is funded for each institution to support a director and office expenses. Separately organized institutes are specially funded.

TOTAL FUNDING BASE - sum of Instruction and Research, and Public Service

III. ACADEMIC SUPPORT - 17.7% of the Funding Base

IV. STUDENT SERVICES AND INSTITUTIONAL SUPPORT

General Support - 23.1% of Funding Base

Fringe Benefits - FICA, health and life insurance, workers' compensation, etc.

Teachers' Retirement

V. OPERATION AND MAINTENANCE OF PLANT

Regular Operations - funding based on a rate per square footage of facilities

Major Repair/Rehabilitation Fund - 0.75% of current replacement value

Utilities - funding based on an experience rate per square foot

VI. HEW DESEGREGATION PROGRAMS

VII. QUALITY IMPROVEMENT FUND - (1% of I through V)

TOTAL FORMULA REQUIREMENT - (sum of I through VII)

LESS:
Student Tuition - 25%

Other

==========

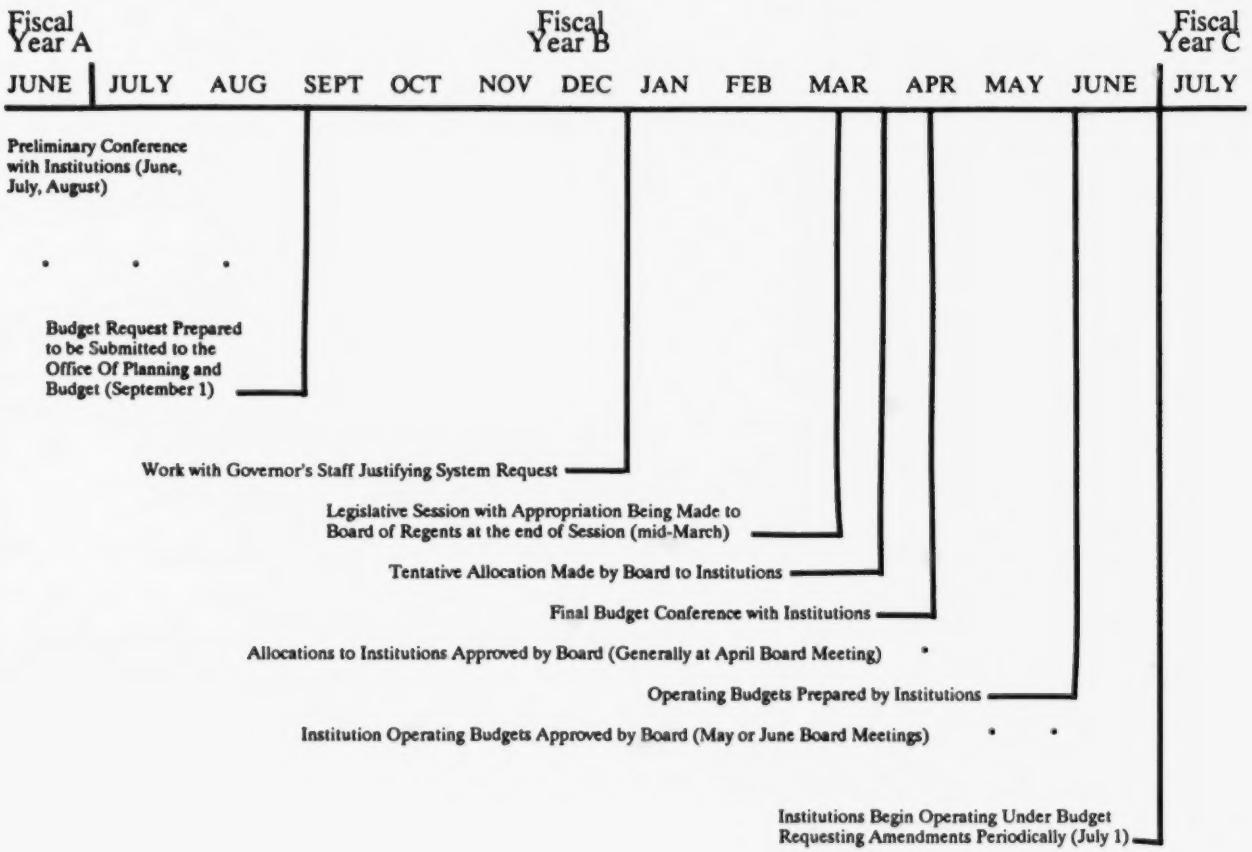
STATE APPROPRIATION REQUIREMENT

The ultimate goal of full-funding of the formula was achieved for FY1987.

Source: Formula for Excellence: Financing Georgia's University System in the 80's, (1982); Office of the Vice Chancellor for Fiscal Affairs

BUDGET CYCLE

The budget cycle of the University System is continuous since amendments are carried to the Board at each monthly meeting to reflect the current status of each institution. The development of a budget for FY C is illustrated in the following schematic.



Fiscal Year A
Fiscal Year B
Fiscal Year C
JUNE
JULY
AUG
SEPT
OCT
NOV
DEC
JAN
FEB
MAR
APR
MAY
JUNE
JULY
Preliminary Conference with Institutions (June, July, August)
Budget Request Prepared to be Submitted to the Office Of Planning and Budget (September 1)
Work with Governor's Staff Justifying System Request
Legislative Session with Appropriation Being Made to Board of Regents at the end of Session (mid-March)
Tentative Allocation Made by Board to Institutions
Final Budget Conference with Institutions
Allocations to Institutions Approved by Board (Generally at April Board Meeting)
Operating Budgets Prepared by Institutions
Institution Operating Budgets Approved by Board (May or June Board Meetings)
Institutions Begin Operating Under Budget Requesting Amendments Periodically (July 1)

STUDENT FEES

Fees are classified as either mandatory or elective. Mandatory fees include 1) fees mandated by the Board for all University System students, such as matriculation fees and non-resident tuition, and 2) fees mandated by the institution and approved by the Board such as student activity fees, athletic fees, health fees, and transportation fees. Elective fees are established by the institution, approved by the Chancellor, and paid by the students who elect and/or benefit from the specific service such as student housing, food service, and special class fees.

MATRICULATION FEES AND NON-RESIDENT TUITION FY1980 AND FY1988

In accordance with recommendations of the Study Committee on Public Higher Education Finance, the Board authorized a 15 percent increase in tuition and matriculation fees in FY1983, FY1984 and FY1985 to bring the student's contribution up to 25 percent of the total General Operations revenue in the Resident Instruction budget. A 12.5 percent increase was required for FY1986 followed by an 8.5 percent increase for FY1987, and a 5.7 percent increase in FY1988.

	FY 1980		FY 1988

TYPICAL ATTENDANCE COST

Academic Year 1988

GEORGIA RESIDENT ONLY

The following data were prepared using the mandatory fee data from the two previous fee tables plus estimated elective charges. The typical cost for each type of institution does not include non-resident tuition for out-of-state or out-of-country students, costs for books and supplies, transportation for commuting students, organization dues, and personal expenses (i.e., clothing, allowance).

I. UNIVERSITY - RESIDENTIAL

Due to the varying fee structure at the four universities, there is no typical cost for all university programs. However, the following estimate for Georgia Tech would also approximate a typical cost for a full-time residential student enrolled in a non-professional program at the University of Georgia.

	ACADEMIC YEAR COST (Fall, Winter, Spring Quarters)
GEORGIA INSTITUTE OF TECHNOLOGY	
Matriculation (Full-Time Student)	$1,461.00
Other Mandatory Fees:	
Student Activity	90.00
Student Athletic	87.00
Student Health	141.00
Transportation	27.00
Estimated Elective Charges:	
Housing (Double Occupancy)	1,422.00
Food Service (21 meals per week)	1,517.00
TOTAL ESTIMATED COST	$4,745.00

II. SENIOR COLLEGE - RESIDENTIAL

Matriculation (Full-Time Student)	$1,101.00
Other Mandatory Fees:	
Student Activity and/or Athletic	165.00
Student Health	72.00
Estimated Elective Charges:	
Housing (Double Occupancy)	916.00
Food Service (21 meals per week)	1,113.00
TOTAL ESTIMATED COST	$3,367.00 *

* For a Non-Residential Senior College, deduct $916.00 for housing, $1,113.00 for food service and $72.00 for student health fees. The resulting figure is $1,266.00.

III. TWO-YEAR COLLEGE - RESIDENTIAL

Matriculation (Full-Time Student)	$ 834.00
Other Mandatory Fees:	
Student Activity/Athletic	63.00
Estimated Elective Charges:	
Housing (Double Occupancy)	814.00
Food Service (21 meals per week)	1,085.00
TOTAL ESTIMATED COST	$2,796.00 *

* For a Non-Residential Two-Year College, deduct $814.00 for housing, $1,085.00 for food service, and $63.00 for student activity/athletic fees. The resulting figure is $834.00.

FACILITIES

- The System owns 2,229 buildings valued at $2,828 million.
- 37 buildings are over 100 years old.
- A total of 51,087 acres are held.
- Completed $39.9 million in construction during FY1987.
- As of June 30, 1987 $109.9 million was under construction and $94 million in funds had been authorized.
- The System has the capacity to house 31,813 students.

Facilities and Capital Outlay

Among the primary responsibilities of the Board of Regents is that of providing adequate facilities at the 34 institutions of the University System. The Office of the Vice Chancellor for Facilities administers Board policy in this area. Title to all properties is vested in the Board of Regents. The Board may hold, purchase, lease, sell, convey, or otherwise dispose of property if deemed appropriate for efficient administration of the University System.

The Office of Facilities, the Chancellor, and the Board of Regents utilize the top-ranked new building requests from each of the 34 institutions to develop the priority list of new buildings to be included in the University System budget request submitted to the Governor each September. The institutions' lists of major repair and rehabilitation projects are used by the Office of Facilities in administering the annual appropriation to the Major Repair/Rehabilitation Fund– an element of the Regents funding formula.

The majority of facilities constructed currently are financed with bond funds issued by the Georgia State Financing and Investment Commission (GSFIC). Additional funds for construction may be obtained from other sources (i.e., private).

CAPITAL OUTLAY APPROPRIATIONS FROM FY1976 THROUGH FY1988

Approved in General Assembly Session	For Fiscal Year	Major Projects	Rehabilitation	Desegregation Commitments	Eugene Talmadge Memorial Hospital

Notes: Classification indicates how the various rooms within a building were actually used (i.e., faculty office space) as opposed to the major function of the building (i.e., residence hall facility, instructional classroom facility).

Academic - instruction (classrooms, laboratories, faculty offices), research, public service, cooperative extension, libraries, computing support, ancillary support (teaching hospitals)

Administrative - executive management, administrative services, fiscal operations, physical plant operations, financial aid, community relations

Faculty and Student Support - faculty and staff services (faculty clubs, lounges, cafeterias), student support (housing, health services, student centers, cafeterias)

Other - unassigned space (capable and incapable of use); building service (closets, stairwells); independent operations (rental property for commercial uses and outside agencies); and parking garages at Georgia State University (412,517 sq. ft.), Medical College of Georgia (713,014 sq. ft.), and University of Georgia (432 sq. ft.).

* Total includes off-campus facilities (i.e., experiment stations); also includes space with coding errors that is not included in the preceding categories.

REPAIR/REHABILITATION FUND

FY1985 - FY1987

In accordance with the recommendations of the Study Committee on Public Higher Education Finance (1982), the day-to-day operation of the physical plant continues to be funded on the established dollars per square foot funding approach. However, to cover the non-formula component for major repairs and maintenance, the Committee recommended that the appropriation be set at three-fourths of one percent (3/4 of 1%) of the current replacement value of all System buildings. This recommendation became effective in FY1984 but was fully funded for the first time in the FY1987 budget. Prior to FY1984, the System had been receiving a constant $2.5 million annually which failed to recognize inflation or increased need.

BUDGET

FY1985 $ 5,461,000
FY1986 $ 8,655,243
FY1987 $20,369,130

Allocations have been used for such projects as reroofing or roof replacement, repairing/replacing boilers and chillers, upgrading electrical systems, providing handicapped access, bringing buildings up to fire code specifications, and the removal of asbestos materials for buildings in the University System.

Notes: 1) Classrooms - includes general classrooms and large lecture rooms used primarily for instruction (program class codes 11, 12, 13, 52, and 81); does not include rooms designated for public service and continuing education.

2) Teaching Laboratories - includes specialized classrooms (e.g., typing, drafting), classroom laboratories (e.g., physics, chemistry laboratories), and special class laboratories (e.g., language and group music laboratories) used primarily for instruction (program class codes 11, 12, 13, 52, and 81).

3) Research Laboratories - includes rooms used for laboratory applications and research and require special purpose equipment for experimentation or observation (program class codes 21 and 22).

South Georgia College	50	25	12	27
Waycross College	53	35	29	34

Notes: 1) The above hours were selected to demonstrate peak time usage rates for general classrooms only. Lower afternoon rates reflect several scheduling patterns:

A) Non-traditional commuter institutions often have difficulty in scheduling early to mid-afternoon classes because students, many of whom are employed full-time, cannot attend them.

B) Institutions often schedule lectures in general classrooms for the morning followed by laboratories in the afternoon; therefore, general classrooms are in less demand in the afternoon, whereas laboratories (not shown above) are in greater demand.

2) A 100% usage rate is difficult to attain because some classes are cancelled due to low enrollment, and the reserved space is not available in time to establish other class usage.

3) Data do not include utilization for continuing education (non-credit) courses.

Notes: 1) Housing refers to college-owned or college-controlled housing; includes single student, fraternity/sorority, and married student housing units.

2) Capacity refers to all spaces created for student housing and reflects normal occupancy. Capacity does not change unless a new housing facility is built or an existing facility is renovated into student housing or a housing facility is converted to other use. A housing facility which is closed due to lack of demand is included until the building is converted to other use.

3) Capacity decreased substantially in Fall 1986 at the University of Georgia due to a reporting definition change. The Fall 1980 data reflect all sorority and fraternity capacity although the University owns and/or controls only a portion (see definition above). The 1987 data reflect only college-owned or college-controlled housing.

Source: Student Housing Reports

RESEARCH and SERVICE ACTIVITIES

- 481,646 enrolled in Continuing Education courses.

- The Universities have 117 institutes and centers that conduct research and provide service.

- The System Universities received $211 million in external grants and contracts to support research and service.

- The Senior Colleges received $13.7 million in external grants and contracts to support research and service.

And Continuing Education

RESEARCH

The research mission in the University System is concentrated primarily in the four universities. These research activities serve to expand the existing body of knowledge, provide learning opportunities for graduate students, and find solutions for problems. A substantial portion of the research is conducted at the following special research centers:

- Agricultural Experiment Station (University of Georgia) - composed of three main stations at Griffin, Tifton, and Athens and five branch stations at Blairsville, Calhoun, Eatonton, Midville, and Plains; and extension-research centers at Attapulgus and Savannah
- Fort Valley State College also has an agricultural research mission assigned to it as a result of its designation as an 1890 Land Grant Institution and operates an Agricultural Research Station at Fort Valley
- Georgia Tech Research Institute (formerly Engineering Experiment Station, Georgia Institute of Technology) - headquartered on the Georgia Tech campus with leased facilities at Dobbins Air Force Base and field offices in Albany, Augusta, Brunswick, Carrollton, Columbus, Douglas, Dublin, Gainesville, Macon, Madison, Rome, and Savannah; research is also being conducted at various sponsor locations throughout the nation and the world
- Marine Sciences Program (University of Georgia) - composed of the Marine Institute at Sapelo Island and the Marine Resources Extension Center at the Skidaway Institute of Oceanography on Skidaway Island; also manages the Georgia Sea Grant program
- Veterinary Medical Experiment Station (University of Georgia) - composed of research facilities within the College of Veterinary Medicine and the Poultry Disease Research Center, both at Athens, and the Veterinary Diagnostic Assistance Laboratories at Athens and Tifton.

PUBLIC SERVICE AND CONTINUING EDUCATION

As part of the mission of the University System, public service and continuing education act as an interface between the 34 institutions and the communities which they serve. Such activities are an extension of the traditional on-campus learning process and have been established to improve the welfare of Georgia's citizens and serve business, industry, government, and professional organizations.

The public service/continuing education component consists of the following:

- Instructional services - offering primarily non-degree credit work designed for the purpose of upgrading skills or personal development
- Applied research - finding pragmatic solutions for identified problems
- Consultation - providing expertise for solving problems
- Technical assistance - providing support for completing a task

Public service activities at University System institutions are very diverse. To help facilitate these activities, the following special public service organizations have been established:

- Georgia Extension Service (University of Georgia Coperative Extension Service / Fort Valley State College Cooperative Extension Program) - conducts agricultural, home economics, and youth development programs throughout the State
- Engineering Extension Division (Georgia Institute of Technology) - provides industrial education programs for industries in the State
- Rural Development Center (Tifton - unit of the Cooperative Extension Service) - assists Georgia's rural citizens and communities in achieving maximum social and economic development
- Urban Life Center (Georgia State University) - seeks solutions to urban problems through instruction, research, and service.

Sources: Policy Manual, 1983; Utilization of the Continuing Education Unit (C.E.U.) within the University System of Georgia, 1983; Annual C.E.U. Reports

CONTINUING EDUCATION

Regents policy mandates that each institution shall offer a variety of conferences, institutes, short courses, workshops, seminars, and training programs. The principal unit awarded for participation in these non-degree credit activities is the Continuing Education Unit (C.E.U.), which is defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. The rapid growth that has occurred in this area is displayed below:

CONTINUING EDUCATION ACTIVITIES
1974-75 - 1986-87

12-Month Period*	No. of Programs	12-Month Period*	No. of Programs

INSTITUTES AND CENTERS

The university level institutions provide the State with a network of institutes and centers which perform research and/or public service activities.

Georgia Institute of Technology

Advanced Technology Development Center
Bioengineering Center
Center for Architectural Conservation
Center for Excellence in Rotary Wing Aircraft Technology
Center for Work Performance Problems
College of Architecture Construction Research Center
Communication Research Center
Computational Mechanics Center
Environmental Resources Center
Fusion Research Center
Georgia Productivity Center (industrial)
Georgia Tech/Emory University Biomedical Technology Research Center
Health Systems Research Center
Materials Handling Research Center
Microelectronics Research Center
Nuclear Research Center
Rehabilitation Technology Center (disabled persons)
Research Center for Biotechnology
Software Engineering Research Center
Technology Policy and Assessment Center
Georgia Mining and Mineral Resources Institute
Georgia Tech Research Institute (seven major research labs)
- Economic Development Laboratory
- Electromagnetics Laboratory
- Electronics and Computer Systems Laboratory
- Energy and Material Sciences Laboratory
- Radar and Instrumentation Laboratory
- Systems and Techniques Laboratory
- Systems Engineering Laboratory

PUBLICATIONS

Publications

Following is a comprehensive list of University System of Georgia publications. Many of these are referenced in this document.

GENERAL

Annual Report (annual). A summary of major University System activities during the fiscal year including data on students, faculty, curriculum, degrees, finances, physical plant, and libraries.

System (monthly). Magazine describing activities of the Board, the Regents Central Office, and University System institutions.

The Policy Manual (second edition, 1982; updated continuously). Codified manual of official Board-approved policies.

PLANNING

College Participation Rates and Their Determinants (1983). A study of participation rates for Georgia and the nation, with recommendations for improving the rate for Georgia.

The Economic Impact of the University System of Georgia on the Economy of the State of Georgia (1985). Identifies the impact of the 33 institutions on the economy of the State in FY1984.

The Eighties and Beyond: A Commitment to Excellence (1983). A report of a statewide needs assessment for public higher education which addresses the more pressing issues facing the System and contains recommendations designed to serve as a plan for responsible action.

Toward Quality Postsecondary Education for Deaf Georgians (1985). Assessment of need for educational opportunities for deaf citizens.

University System of Georgia Information Digest (1983-84, 1985-86, 1986-87 editions). Compendium of facts and statistical data about the System and its member institutions.

ACADEMIC AFFAIRS

A Guide to Undergraduate Programs (annual). Brochure prepared for distribution to high school counselors containing a matrix of programs offered by each System institution.

Academic Affairs Handbook (1986; updated annually). A reference to policies and procedures that affect the operations of the office of the chief academic officer at each unit in the University System.

Analysis of Degrees Conferred (annual). Trends in total degrees conferred by level and discipline.

Computers in the Service of Higher Education in Georgia (1986). Recommendations of the Information Technology Task Force concerning technology and faculty development, computer resources, and curriculum review.

Core Curriculum Handbook (1981, updated as needed). Description of the common Core Curriculum followed at all System institutions. Describes the four areas that compose the 90 hour core and contains an inventory of all courses which meet the core at each institution.

Engineering Education in Georgia (1985). Report prepared by staff at the Georgia Institute of Technology addressing the need for expanded engineering education opportunities in Georgia.

Georgia's Needs and Opportunities for Engineering Education (1986). Report prepared by the Southern Regional Education Board for the Board of Regents addressing the need for expanded engineering education in Georgia.

Health Professions Education Programs (annual). Inventory of programs by institution, fall enrollment in each, total student capacity, and fiscal year graduates.

Improving Undergraduate Teacher Education Programs in Georgia (1986). Recommendations of an external review committee.

Issues and Concerns Confronting the Junior Colleges of the University System of Georgia (1986). Report prepared by the Junior College Study Committee based on concerns expressed by the System's junior college presidents.

Opportunities at Predominantly Black Colleges (1985). Recruitment brochure designed to attract white students to Predominantly Black Institutions.

Opportunities for Minority Students (1985). Recruitment brochure designed to attract black students to Predominantly White Institutions.

Publications (Continued)

Preparing for College: Essential Courses and Skills (1985). A description of the pre-college curriculum to be effective Fall 1988 as a requirement for regular admission to University System institutions.

Program Inventory/Listing of Degrees and Majors Authorized (updated monthly). A comprehensive listing by institution of all Board-approved offerings with assigned Classification of Instructional Program (CIP) codes.

Report from Information Task Force for Computer Literacy (1985). Task force report on how computers can be used as tools within University System institutions.

Statewide Assessment of Nursing Education (1981). Summary of needs, goals, and recommendations for public nursing education programs in the State.

ENROLLMENT

Analysis of Foreign Student Enrollment (updated each fall quarter). Enrollment by country and institution.

Enrollment and Quarter Credit Hour Projections (updated annually). Projections for a five-year period.

Quarterly Enrollment Report (quarterly). Report of headcount and equivalent full-time enrollment, demographics of students, and enrollment by class by institution.

STUDENTS

High School Report (annual). A service provided by the University System whereby all high school principals in the State are notified of the academic progress of their graduates at the end of their first year at a System institution.

Normative Data for the Freshman Class (annual). Description of entering freshmen in terms of SAT scores, high school average, and freshman grade point average by institution. Equations for predicting average grades for future freshmen also provided.

Student Financial Aid Report (annual). Dollars awarded, number of awards, and unduplicated recipients for various aid categories by institution.

Transfer Student Report (annual). Report of students transferring to and from University System institutions including numbers and grade point averages.

FISCAL AFFAIRS

Annual Financial Report (prepared at the end of each fiscal year of operation). Presents the financial statement for each unit and a consolidated statement for the entire System.

Formula for Excellence: Financing Georgia's University System in the 1980's (1982). Final report of the Study Committee on Public Higher Education Finance. Describes current funding system with recommendations concerning tuition policies, quality improvement, budget lapse, and indirect cost recovery.

University System Budget (prepared for each fiscal year of operation). Summary of budget allocations for each teaching institution and activities other than teaching.

FACILITIES

Building and Room Inventories (updated each fall quarter). Inventory of buildings including year of construction, latest renovation, condition status, ownership, capital investment, and gross square feet, and an inventory of rooms including square feet, use, and student stations.

Building Project Procedure (revised as needed). Material prepared to assist architects and institutions in following procedure for building projects constructed in the University System of Georgia.

Quarterly Housing Report (quarterly). Summary of housing capacity and occupancy rate for each institution.

Space Utilization Survey Reports (annual, fall quarter). Utilization of classrooms, lecture rooms, and laboratories for units of time by institution.

Publications (Continued)

PUBLIC SERVICE/CONTINUING EDUCATION

Summary Report of C.E.U. Activities (annual). Annual statistical summary of programs and participants by classification of programs and institution.

Utilization of the Continuing Education Unit (C.E.U.) Within the University System of Georgia (1983). Policy manual for conducting and reporting C.E.U. activities in the System.

Cooperative Programs (annual). Listing of continuing education courses offered by title and name of cooperating institution.

Short Courses, Conferences, Workshops, Seminars (annual). Listing of planned continuing education activities offered by an institution by title and date to be offered.

INFORMATION SYSTEMS

Annual Summary Regents Consolidated Reporting System (annual). Summary of courses, quarter credit hour production, average section size, and room utilization.

Faculty, Student, Curriculum Data Element Dictionary (1981, updated periodically). Dictionary containing standardized definitions for reporting purposes in the University System.
